

Tropic Marin® Mixes

From 2019 for Russian Federation market we supply following assortment of Tropic Marin® Mixes:

Tropic Marin® Pro-Reef Mix
Tropic Marin® Syn-Biotic Mix

10 kg and 25 kg buckets
10 kg and 25 kg buckets

Tropic Marin® Mixes are produced by mixing in laboratory facility artificial pharmaceutically pure chemical compounds. Tropic Marin® Mixes are used to create artificial marine flora in aquariums in order to create a dynamic ecosystem similar to NSW. Our Mixes do not contain any toxic byproducts, no perfume, n-o flavor, no preservatives, no vitamins. This would not be suitable for a healthy ecosystem.

The importer and distributor for Tropic Marin® Mixes is **LLC BSK**, Belgorod (www.bsksalt.ru)
